

# The Save my trees Initiative

## **Pulpwood's offer**

We have received a number of queries from people in relation to Pulpwood's offer, and seeking our opinion on various other grower group requests for funding and financial support.

From a Save My Trees perspective, whilst we endeavour to keep you as informed as possible, we are unable to provide advice in relation to the various commercial offers and grower groups. Each grower has a different situation and circumstance, which will influence each grower's assessment of any proposal.

Save My Trees and are able to present as much information as possible to growers in order for them to make an informed decision, but ultimately each grower will have to make an individual decision on any proposals.
