

The Save my trees Initiative

In similar vein to the Timbercorp Growers Action Group, we have now released the Great Southern Growers version and we need your help to support the cause!

Firstly, we need you to register your interest on the below website today.

www.savemytrees.com.au

PLEASE consider placing a link to this site on your practice's website.

Secondly, forward this email to as many of your colleagues and clients (suggestions below) as you can requesting their support.

- Other dealer groups
- Proper authority holders
- Fund managers, executives, BDMs
- Growers/investors/clients
- Industry associations, peer groups
- Other parties effected by the collapse of the Great Southern Group (e.g. Former employees, forestry contractors, businesses in rural communities, industry participants, Associations, Unions)

Commercially interested parties can register a confidential enquiry via the website.

Media enquiries can also be logged online.

The more people who register, the more effective we will be as a lobby group to help the interests of over 40,000 growers and other parties who have a mutually beneficial interest in helping to achieve a commercial outcome.

Let's not leave our fate in the hands of the receivers! Please rally together and show your support. Help us create the time to investigate and lobby for a better outcome for growers and a key industry that is vital to Australia's future.

As the website evolves we will need your help to send ACTION ALERTS to our political leaders and other influential parties including lobbying via ePetitions to Federal Parliament.

APATHY IS A MAJOR DANGER – Please be active in your support and encouraging others. We would like to achieve a target of 70% of growers by number and value within two weeks (29 July 2009) of going live.

We would also like support from a large number of non growers who have been affected or believe the issue is of significant importance.

Thanks for your cooperation.

Rob Burns

Chairperson
